9 Laws and Regulations Nurse Practitioners Should Know

Today, no one should doubt that nurse staffing affects patient outcomes. Provision 1 2001: The nurse, in all professional relationships, practices with compassion and respect for the inherent dignity, worth, and uniqueness of every individual, unrestricted by considerations of social or economic status, personal attributes, or the nature of health problems.

Law every nurse should know : Creighton, Helen, 1914

Examples: Not Buprenorphine or Methadone taper. Mandatory Reporting Process Regarding Disciplinary Actions Article VI of the eNLC requires prompt reporting of any information that results from an investigation of a complaint against a nurse. Disciplinary Impact of a Criminal Conviction As stated in the eNLC uniform license requirements, a state or federal

Filesize: 6.49 MB

felony conviction or plea precludes an applicant from obtaining a multistate license.

What is a Nurse Practice Act?

However, it is imperative to understand that the provisions of this compact are of great importance to nurses because practicing in ignorance could lead to serious violations and serious consequences.

9 Laws and Regulations Nurse Practitioners Should Know

Retrieved from National Council of State Boards of Nursing. It can be difficult to fulfill a standardized nursing and care delivery model if direct-care RNs have different skill sets, certifications, and abilities.

Law every nurse should know : Creighton, Helen, 1914

Nursing standards of care are an integral part of medicine, because they highlight the importance of the nursing profession and serve as a guideline for delivering quality medical services. Actual cases of disciplinary actions against nurses are used in this article; several measures have been taken to preserve anonymity and confidentiality.

Law every nurse should know : Creighton, Helen, 1914

The infraction is handled as if the offense took place in their jurisdiction, even if it happened in a remote location. January 19, 2018 marked the date that multistate licensure practice via a compact would no longer be available to nurses whose states did not switch to the eNLC. Outcome measurement With pressure building to decrease healthcare costs, nurse researchers already have shown the impact of staffing on patient outcomes through research and the use of nursing-sensitive indicators.
