different supplies, bandages, popsicle sticks for tongue depressors, empty ball point pen for pretend needles, etc Visiting the Doctor You could discuss why it is important to see the doctor regularly. Children are fascinated with their bodies and they want to know how they work. Every day, about 1,600 young people under 18 try their first cigarette, and nearly 200 become daily cigarette smokers.

#### **Health and Hygiene Activities & Fun Ideas for Kids**

They may also live longer than someone who takes a passive approach to health.

#### **Healthy Habits You Should Teach Your Child Now**

Ask them to create themselves using the slices of fruit. Communal parks, alleyways, and other areas that kids may pass through or go to play should be checked out for any harmful debris like scrap metal or unsafe structures.
