Sociology of Education

Society is called healthy when every member of the society accept the general moral values and obey them. Not only is education a primary agent of socialization and allocation, modern societies have developed formidable ideologies that suggest that education should have this defining impact Meyer 1977. We can say Bourdieu's has combined the structural functionalism and conflict theory in his cultural capital concept.

SOCIOLOGY OF EDUCATION

We have some of the indexes which indicates the social biases in all sphere of education like language and literature of texts, male female ratio of learners,teachers. Children going to the worst schools in urban areas face many more obstacles to their learning than those going to well-funded schools in suburban areas.

Research and Theory Behind the Sociology of Education

Symbolic interactionism This perspective focuses on social interaction in the classroom, on the playground, and in other school venues.

Sociology of Education

And educational institutions follows the directions of dominant group to maintain the status -quo of society ie the lower, middle and upper class children become lower, middle and upper class adults respectively.

Research and Theory Behind the Sociology of Education

Which of these three approaches do you most prefer? In order to study this unit, you must recall the educational philosophies and psychological foundations.

Sociology and Education

And sociologist began to think that education promotes social mobility and undermines the class stratification.

Research and Theory Behind the Sociology of Education

The Coleman Report did not consider such cultural matters or specific educational practices. If education is said to directs society it is true only because there is a social force favouring this.

SOCIOLOGY OF EDUCATION

The process of social reproduction is not perfect and very few learners gets success to overcome the barrier of cultural capital;but most of them fails to do so. Such tracking does have its advantages; it helps ensure that bright students learn as much as their abilities allow them, and it helps ensure that slower students are not taught over their heads.
