The Case for Secularism At its most elementary level, secularism is nothing more than the separation of church and state.

Religion's Relationship to Happiness, Civic Engagement and Health

Political rights such as free and fair elections, nondiscriminatory voter registration, and transparency of vote counting were 27% worse in countries with a state religion, and civil liberties including freedom of expression, belief, and association were 37% lower. Some secularists argue that public reason should be applied only to legislative and constitutional issues, but others maintain that the principle should be extended to embrace a conception of the public sphere that includes all matters of public discourse and political decision-making between citizens on these issues see, e.

Appendix A: Methodology

The concern expressed here, presumably, is this: for all we reasonably believe, citizens who are willing to coerce their compatriots for religious reasons will use their political power to advance their sectarian agenda—using the power of the state to persecute heretics, impose orthodoxy, and enact stringent morals laws.
