## How Piramal Sarvajal Using IoT To Provie Safe Drinking Water

Jalswarajya 2 2014-2020 is demonstrating new models, pioneering the adoption of the PforR instrument in the country.

### CSRWire

It was replaced by the AMRUT , the new government's flagship programme for urban development.

## India has just five years to solve its water crisis, experts fear

The AAPI has formed a strategic partnership with Community Pure Water Foundation CPW to provide clean drinking water to millions of people in rural India. Moreover, the drainage and solid waste collection services are not adequate in most of the urban areas.

## How Piramal Sarvajal Using IoT To Provie Safe Drinking Water

This figure refers to 921 Class I Cities and Class II Towns in 2003—04.

### CSRWire

Large distribution systems with often illegal connections present a risk of recontamination, especially if the supply of water is intermittent. Tariffs are also set by state governments, which often even subsidise operating costs. In fact, a lack of awareness about the dangers of drinking contaminated water has resulted in villagers paying for medical care because the water makes them ill.

## Drinking Water For Rural India Facts, Measures & Way Forward

It constitutes a milestone for India, where no large city so far has achieved continuous water supply. The cost of this which is borne by the government is not seen as a subsidy. This real-time online monitoring enabled the company to assure a greater uptime in machine usage.

### **Sustainability in Water Supply**

Yusuf is a commonwealth scholar and a trained policy writer from Central European University, Budapest, Hungary. Rural sanitation is typically provided by households themselves in the form of latrines. It has revived five river systems.
