## Class Roster

We will begin the course by studying the ways in which incentives facing players in the health care industry are different from those present in other industries.

## Master of Applied Economics and Econometrics

Topics include an overview of security types, the role of risk in asset pricing, the capital asset pricing model, the efficient markets hypothesis, portfolio theory, characteristics of mutual funds in retirement accounts, stock options, future contracts, and valuation models for stocks and fixed income securities. Priority enrollment given to majors in the department.

## Departments & Fields of Study: Applied Economics and Management

Permission of committee chair is required. Students must be able to attend in person. Explore materials for this course in the pages linked along the left.

## Applied Econometrics Home Page

Preference given to Dyson students. Students who hold appointments as teaching assistants must enroll in this course, but it is open to other students as well.

## Applied Economics

Prerequisites: ECON 200A-B-C or consent of instructor. Prerequisites: ECON 100A and ECON 120B or MATH 181B; and MATH 18 or 31AH. Monetary and fiscal policy theories in the presence of real and nominal rigidities.

## Applied economics : an introductory course (Book, 1986) [tech.radiozamaneh.com]
