## Book Commentary: Computerized Workplace Writing

Some electronic books incorporate text enhancements, such as definitions of words or background information on ideas. The literacy curriculum in particular is likely to be a primary model for this situation because the skills of reading, writing, listening, and investigating lend themselves to self-development and peer work to reach measurable learning goals. Computers incorporate a new orality by bringing new perspectives to the manipulation and understanding of writing.

## Writing Electronically: The Effects of Computers on Traditional Writing

Given that computers are still a developing technology, drawing any definitive conclusions about the effect of electronic writing on traditional standards of quality may be premature. The reach of the Internet makes quality an important issue: ideally, such a powerful medium should present only the best.

## CiteSeerX — Electronic Writing and Workplace Literacy

The Net encompasses all these specialized forms of writing, including their recognizable typography, and allows writers to create new forms unique to cyberspace such as mailing lists, the Web, MOOs and MUDs. Such considerations add a dimension to online communication that is both a challenge and an opportunity.

## Literacy in the Digital Age: From traditional to Digital to Mobile Digital Literacies

Using technology is no longer a choice in our society. It also includes skills for handling privacy and security in online environments.

## Digital literacies and the skills of the digital age

Figure 1: UNESCO literacy keyword UNESCO works continuously to promote inclusive education practices that eliminate the obstacles limiting the participation and success of all learners, respect the needs of people from different backgrounds and help to eliminate all kinds of discrimination in the learning environment. Figure 1 below illustrates the different components that made up the United Nations Educational, Scientific and Cultural Organization UNESCO , definitions from 1958 — 2005. The oral conventions are evident in the way people subvert or abandon traditional conventions of grammar and punctuation in electronic writing.
