Exclosures and Natural Areas on Rangelands in Utah (Classic Reprint): Laycock, W A: tech.radiozamaneh.com.mx: Libros

In addition, some watershed basins along the Wasatch front from which grazing has been excluded for many years are also included. The list presented here is part of the Reference Area program and it includes all known fenced areas in Utah protected from grazing by either livestock or big game as well as larger natural areas that are thought to have received little or no use by domestic livestock because of natural barriers or inaccessibility. The exclosures and natural areas are grouped under the agency which administers' or controls the land on which they occur and are further subdivided under districts in the case of the National Forests and Bureau of Land Management.

Lessons Learned from Bison Restoration Efforts in Utah on Western Rangelands

Included among this program's Objectives is the compilation of a comprehensive list of existing exclosures and natural areas on rangelands in North America.
