## New Book: The Story of London's Underground Retold in Images

The Underground has transported people around the capital for just under 200 years.

## Mind the gap: the story of the London Underground in pictures

During many tube stations were air-raid shelters where people sought protection during the German bombing of the city.

## TfL: The Story of the London Underground: : David Long: Bloomsbury Children's Books

Yerkes bought the rights to this railway in 1902. In 1911, Earl's Court station got London's very first escalators and in 1929, the doors of the Tube stopped being operated by hand.

## London Underground

In 2000 overall control of the system passed to TfL, which had been opposed to the arrangement. In 1983, Karen Collett took a of her nephew riding the Bakerloo line.

## TfL: The Story of the London Underground: : David Long: Bloomsbury Children's Books

After some experimental tunnelling in 1959, construction began in 1963 and, unlike the earlier tubes, the tunnels did not have to follow the roads above. Some of the cars on the District line were in need of replacement, and in 1953 an unpainted aluminium train entered service, and this became the standard for new trains, and was followed by. He ran to catch her, but she turned a corner, and when he reached it she had disappeared.

## The secret story of how the London Underground Central line was used as a fighter aircraft factory

This undermined the argument that PPP would place the risks involved in running the network into the hands of the private sector. Proposals to extend the Met were accepted, and the committee agreed a proposal that a new company, the Metropolitan District Railway commonly known as

the , be formed to complete the circuit.
