Baldness reminds those of us doomed to it that we are masters of our destiny only so much. Thus, the prospect of this regime employing extreme measures — should the protests continue and spread — is very real. It could both yield immense prosperity and encourage discipline and the moderate virtues by making self-command which is essential to keeping a job, satisfying customers, and beating out the competition a means of bettering our condition.

When Bashar al-Assad inherited power in 2000, there was widespread hope of a Damascus Spring — an end to the bloody repression that characterized the rule of his father, Hafez which reached its apex in 1982, when he had an estimated 25,000 protesters in Hama killed. Only a fraction of what physicians do is based on solid evidence from Grade-A randomized, controlled trials; the rest is based instead on weak or no evidence and on subjective judgment. That's the story of TARP -- the Troubled Assets Relief Program.
