## City of Johannesburg South Africa, Tours and Travel Guide

Flaggers will direct both directions of traffic through the open lane. The land area within the city boundaries measures 1,645 sq km / 635 sq mi, which is large in comparison to other cities. In fact, Johannesburg is growing at such a rate that it is soon expected to make an appearance on the list of the largest ten cities on the planet.

## City of Chesapeake, Virginia

View of the Johannesburg Central Business District from Braamfontein City of Johannesburg South Africa, Tours and Travel guide It is believed that the name refers in fact to an optical illusion, caused by quartzite rocks wet from the rain, looking like glistening water. A trip to the very historical Johannesburg Zoo is also recommended, as is an afternoon at the Gold Reef City, where you will find an authentic reconstruction of how the city appeared during the gold rush of the late 19th century.

Skyline of Johannesburg, the City of Gold, at night City of Johannesburg South Africa, Tours and Travel guide copyright © South African tourism Gold and money are still the driving force in this city, creating a booming and happening environment, attracting those that are looking for opportunities to make money and realize their dreams.

## Gauteng Tourism Authority

The Gauteng Tourism Authority within the Rosebank Mall does tend to be the most reliable. Currently the world's biggest inland city, Johannesburg features a number of fortified suburbs, along with a modern city centre which is teeming with towering skyscrapers, huge shopping complexes and much excitement, with a number of new high-rise projects taking place in the districts of Midrand and Sandton. The city's most obvious landmarks are its dominating skyscrapers, which make up the skyline and have in the past been compared with.,

## Gauteng Tourism Authority

View of Johannesburg CBD at dusk City of Johannesburg South Africa, Tours and Travel guide copyright © South African tourism According to a Government survey of 2007, the population of Johannesburg within city boundaries came to a figure of 3,888,180 in that year and for the Greater Johannesburg Metropolitan area to a figure of 7,151,447, almost double.

### **Johannesburg Travel Guide and Tourist Information: Johannesburg, Gauteng, South Africa**

The population density is relatively low, a figure of 2,364 per sq km 6,120 per sq mi. Notable destinations include Magaliesburg, and also Sun City, an upscale South African casino resort near to Rustenburg, where spectacular man-made beaches and entertainment complexes are in store. It was the discovery of gold in 1886 that brought about the transformation of a vast grassy expanse scattered with kopjes small hills and ridges in to a huge metropolis in no more than 125 years.

### **Gauteng Tourism Authority**

Also of note is the Constitution Hill, where the Johannesburg Constitutional Court is located, as well as the prison that once housed famously both Mahatma Gandhi and also Nelson Mandela. . It has made Johannesburg the hub of South African commerce and mining, home to the headquarters of South Africa's major financial institutions, mining houses and a variety of multinational corporations and also the main gateway to sub-Saharan Africa.
