A straightforward but entertaining story. Reel: 80 Spanheim, Friedrich de, 1632-1701. A mildly science-fictional story in which an adventurous young woman and her boyfriend investigate the legend of a green stone idol.

The sequel to Mentoria; or, The young ladies instructor: in familiar conversations, on a variety of interesting subjects, in which are introduced, lectures on astronomy and natural philosophy, expressed in terms suited to the comprehension of juvenile readers; being principally intended to enlarge the ideas, and inspire just conceptions of the deity, from the contemplation of the general system of the universe.

Reel: 41-42 The Designer and the Woman's Magazine. Then they all prepare to descend into a dungeon that leads to the core of Die. Then, I had only two choices, using this rejection as a catapult or simply giving up.
