Focus Strategies in African Languages: The Interaction of Focus and Grammar in Niger

Topics investigated are, among others, the relation of focus and prosody, the effects of information structure on word order, ex situ versus in situ strategies of focus marking, the inventory of focus marking devices, focus and related constructions, focus-sensitive particles. Caron, Bernard, professeur; Zima, Petr. Hindman, Bruce Hoffman, David L.

Focus Strategies in African Languages

It reveals new focus strategies as well as fine-tuned focus distinctions that are not discussed in the theoretical literature, which is almost exclusively based on well-documented intonation languages.
