Australian Centre for Geomechanics

Male is larger than female.

Low levels organic amendments improve fertility and plant cover on non

We believe the information gained from the Judy Creek test pit monitoring will be beneficial to our reclamation planning for the proposed Judy Creek mine and hopefully can be used in reclamation planning for other Esso Minerals coal properties in Alberta such as the Hinton east property.

Harlequin Duck

Forest Practices Code of British Columbia.

Mine Design and Numerical Modeling Laboratory

Winter diet of Harlequin duck at Sequim Bay, Puget Sound, Washington. Vegetation and fire history of a ponderosa pine-white fir forest in Crater Lake National Park. EPA Stormwater and Water Quality Model Users Group Meeting, Victoria, British Columbia, October 15-16, 1987, edited by H.

MDAG Papers

Shengquan He, Tuo Chen, Isaac Vennes, Xueqiu He, Dazhao Song, Jianqiang Chen, Hani Mitri 2020 Dynamic Modelling of Seismic Wave Propagation due to a Remote Seismic Source: A Case Study. Department of the Interior, Bureau of Land Management. Fort Collins, CO: Colorado State University: 449-476.

Mine Design and Numerical Modeling Laboratory

Fire, logging, and white-tailed deer interrelationships in the Swan Valley, northwestern Montana. Ecology of Post-Mining Landscapes, 15-19 March 1999, Cottbus, Germany. Prediction of Acid Rock Drainage in Waste Rock Piles Part 2: Water Flow Patterns and Leaching Process.

Mine Design and Numerical Modeling Laboratory

Snowbrush ceanothus also responded to broadcast burning following harvest in ponderosa pine stands in Mt. Ornithologist and OÄ¶logist 6 6 :44. Root Nodulation: Nodulation of snowbrush ceanothus seedlings that establish following fire may be a function of the overstory stand age before disturbance.
