It was one of John Lawrence's sayings that procrastination is the thief of efficiency as well of time, and though I would not say that an administration is good in proportion to its pace, I would certainly say that it cannot be good if it is habitually and needlessly slow. It is a brand that encompasses a family of whole new concepts of diaries, planners, calendars, journals and functional-notebooks with creative-templates for information preservation, improving productivity and responsiveness. There is to be uniformity over the whole of India, and provision is made for better supervision. The report was submitted in May 1903, but before any orders could be passed upon it, it had to be referred to the various Governments for their opinions. It is expected to supply water to an area ten times that extent and to maintain a population of 500,000.

He has a specially rich vein in cases concerning disputes about land, water or crops, and sometimes in the management of cattle-pounds. A hundred years ago a great Governor-General left India under circumstances somewhat similar to those under which another, even greater Viceroy and Governor-General, is now leaving.

Leaves from a Viceroy's Note Book by Curzon Marquess of Kedleston

More wrangling and acrimony with the cabinet resulted before a compromise was reached and it was agreed that Curzon, as head of government in India and without taking the King's name, would announce a promise of early fiscal relief. When, instead of denouncing the investment of foreign capital in India, the voiceful minority impresses upon the hoarders of the millions of pounds that are annually absorbed by India, like the waters of a useful river in the sands of an Indian desert, that they would do well to put out their capital in industrial enterprises, the remedy will perhaps be found, but until that time comes, any change for the better will probably be slow.

But in higher education the position was still worse, for here it was not a question so much of a blank sheet in the education of the community as a page scribbled over with all sorts of writing, some of it well formed and good, but much of it distorted and wrong. At that time he was a member of parliament and clearly on his way to the highest office in India. This can only be done by large reservoirs where the surplus water of good years can be stored for use in times of drought or by tapping the subterranean streams of water by means of wells.
