## Weimar Republic

Dawes Plan Germany elected Gustav Stresemann as their new chancellor in 1923. I have just two caveats for a book that is otherwise fair as far as it goes: - for a book published in mid-2007, the references don't extend beyond Summer 2004 at the latest, as far as I can see. Trump and Reagan are similar in the fact that they heavily courted evangelical Christians for votes, knowing that their support was crucial.

## Germany

This stretching of the term is not only disingenuous — it is also dangerous. Thus, Germany is seen as the main beneficiary of the EURO. The editors certify that all materials, with the possible exception of editorial introductions, book reviews, and some types of commentary, have been subjected to double-blind peer review by qualified scholars in the field.

## Germany

On February 6, 1919, the National Assembly met in the town of Weimar and formed the Weimar Coalition.

### Germany's Ruling Christian Democrats Pick Merkel Loyalist as New Leader

Thanks for the review of the book. The party is said to be planning an electoral debut at regional elections in the eastern states of Saxony, Thuringia and Brandenburg this autumn.
