## A Simple Challenge to Homeopaths

We do not have the surgical skills to mend a broken arm, however we can help the patient by selecting remedies that will help speed up the healing process; Symphytum is a remedy we use for helping the bone repair itself and this would be given to the patient after their bone has been set with a cast. She is a bit ARV-happy but it is still a very informative read. The aim is twofold; one, to treat individually and show the efficacy of homoeopathy for these patients and two, to look for a genus epidemicus for AIDS, providing it is an epidemic.
