### 4 Benefits of Inclusion Classrooms

At that time, this law was called the Individuals with Disabilities Education Act, or IDEA. Before crucial legislation became law, few children with disabilities received an adequate education.

### Debating the role of special schools in inclusive education

One budget cut proposed in 2012 could have adversely affected more than 6 million students with special needs and resulted in layoffs of more than 10,000 special education teachers and other support staff. Despite this reality, a huge body of research exists on the benefits of inclusive environments in the early years for children with disabilities.

### What to Know about Special Education: Now and Then

I'm convinced that it's worth it! Similarly, the guidance recommends early childhood providers partner with families on advocacy and policy development, develop formal collaborations with community partners, and strengthen collaboration among staff members to better support inclusion.

### Meeting Special Needs: Inclusion Classrooms Fair But Not Equal

Starr is the curriculum and technology editor for Education World. In my opinion, every student -- not to mention every teacher -- must certainly suffer from the attempt. There are a number reasons commonly as barriers to creating inclusive learning environments, including: false beliefs and negative attitudes about inclusion, interpretations of IDEA that emphasize individual IEP requirements over LRE requirements, lack of training among the early childhood workforce, lack of comprehensive services necessary for student support, and limited time to build necessary partnerships.

### Does Inclusion Help or Hurt Students?

They may find that they have more in common with other kids than they thought.
