## Infrastructure Canada

Information on the same children was collected two years later, in 1996-97. The merits of the plan — essentially whether it is too tough or not tough enough on emitters — will be debated for some time. Many federal-provincial meetings are provided with organizational and secretarial services through an intergovernmental body, the Canadian Intergovernmental Conference Secretariat.

### Joint Statement on federal

Provinces have also established several interprovincial ministerial bodies.

#### 1. FEDERAL

It is chaired by the prime minister. Ministers agreed to initiate discussion for renewed bilateral funding agreements in accordance with the Multilateral Early Learning and Child Care Framework, noting some common interests, challenges and perspectives on early learning and child care, including support for workforce participation.

#### Federal, provincial and territorial ministers work together to continue improving early learning and child care for Canadian families

Even then, competing interests come into play. The National Longitudinal Survey of Children and Youth also provides information on the child support arrangements parents made when they separated. On many issues such co-operation is limited by divergent political orientations and regional interests.
