printed by Saunders& Cullingham - Richard Marx

The screenshot shows a webpage from englishoftheday.com. The title is "Opposites of **However**". A note at the top states: "However, it does not connect the two sentences grammatically, that is, the first sentence does not put the end of the sentence and then 'However' is written at the beginning of the second sentence. However, it is used in the same way in nevertheless." Below this is a section titled "Opposite Words" with a grid of words:

	and	moreover	then
✓	as	likewise	as well
✓	a	plus	
✓	consequence	therefore	
✓	also	what is more	
✓	furthermore	next	
✓	in addition	afterward	

Below the grid is a section titled "However in a Sentence" with examples:

- He was feeling very ill. **However**, he went to work.
- She loves to play football. **however** her troubles do not allow it.
