### FedCenter

The Federal Energy Management Program's Water Project Screening Tool enables federal agencies to quickly screen sites for water efficiency opportunities. You can unsubscribe at any time and you can contact us.

### 10 facts about water policy and infrastructure in the US

In November 2019 the Arizona Chamber of Commerce and Industry, the Greater Phoenix Chamber and many other local chambers sent to USDA leaders urging that drought initiatives in the Farm Bill be funded so that agricultural producers can proactively address drought-related risks and concerns.

### Water law in the United States

The conflict between state-acquired water rights holders and the federal government continued as Congress granted public land management agencies additional authorities to manage public lands or regulate activities. It walks through each of the 2016 Guiding Principles and highlight major changes or significant new requirements. Code § 1362 7 , accessed November 16, 2016.

### Trump Seeks to Create Coordinated Federal Water Policy via Executive Order

Estimate Water End Uses Determining water use at the equipment or application level can be challenging. Wildlife, recreation and navigation activities also depend on those waterways, the previous administration argued. The Trump Administration should rescind the rule and develop a new one consistent with the language and intent of the statute and Supreme Court precedent.
