tutorial, and assessment program designed to work with this text to engage students and improve results.

Scatterplots and Regressions

The Workbook includes Extension Exercises, Exploration Activities, Conceptual Exercises, and Group Activities. These exercises are a great way to assess whether students have viewed and understood the key concepts presented in the videos. Today, the videos are specific to each book in her series.

Martin

Purplemath The point of collecting data and plotting the collected values is usually to try to find a formula that can be used to model a presumed relationship.

Martin

If you're working by hand, you and your classmates will get slightly different answers; if you're using calculators, you'll all get the same answer. Say which regression is a better fit, and why.

Martin

Elayn Martin-Gay's developmental math textbooks and video resources are motivated by her firm belief that every student can succeed. So always remember, when doing correlations, that all we're looking for is any apparent match of data sets.

Martin
