**The Anti**

With whatever degree of sincerity, independence is now found in the mouths of the responsible representatives of the Republican party, the President and the President-elect. The atonement made in giving back their independence to the Philippine Islands might purge the United States from that treason to democracy into which it has been betrayed and from which it has suffered at home by the reaction of foreign imperialism, in the assumption by the Executive in the last few years that the end justifies the means, that any methods of procedure, however illegal and violent, may be taken to bring about the object of its desire.
