## If we want our children to thrive, teaching them to read is not enough

Our Top 10 ideas on how to get parents more involved in many aspects of the school day are featured in this gallery of printables and articles.

### Establishing healthy parent

You become a school-time reader, not a life-time reader.

### The Value of Children's Literature

This includes desired frequency and preferred medium of communication.

### 5 Hidden Benefits Of Reading For Kids (And Their Parents!)

Parents can use this checklist to reflect on what has been occurring at home. The challenges I encounter every day as an adult have nothing to do with anything I learned on a test in school. What ideas can your children suggest? The frequency of home learning activities is then explored with a particular focus on examining whether this has changed between cohorts both at an overall level and within sub-groups of parents with different levels of education.

### Reading aloud benefits even older kids

They begin to scribble themselves. And awareness has to come before desire. PBS Parents A new site dedicated to helping parents and caregivers raise children who are ready to learn.

They listen to everything that children say, and they observe the environment that surrounds them. Although parents may not read this handbook firsthand, parent educators may wish to share appropriate information from the book with parents so that they may engage in effective literacy education activities with their children.

## **7 Tips for Reading Aloud to Kids**

Because where are children going to be hearing the most words? For many children, the most significant adults in their lives on a day-to-day basis are immediate family members and caregivers primarily parents , and their teacher.

### **Understanding the Power of Parent Involvement**

Hardinge is a true original, her sentences poised and poetic, her alternative 19th-century world fully imagined, and her intelligent, inquiring female lead not simply a good role model but also a fine addition to literature. Although schools are still struggling to become more responsive to all students, this lack of success is not always due to lack of information Cárdenas, 1995. Boys play more than girls but girls spend hours — probably more than boys do.
