Vol. 29 Iss. 13 (Final Regulation) 4VAC25

Part 829—Special Permanent Program Performance Standards: Abandoned Coal Refuse Remining Operations Proposed part 829 contains special performance standards for abandoned coal refuse remining operations. The study found that coal refuse can be burned directly or reprocessed to separate the waste rock from the burnable coal, by utilizing modern coal cleaning technology. Authority The provisions of this § 87.

Glossary

Motion for Extension of Time at 5. This latter requirement corresponds to the proposed provision of § 829. Such exploration shall be subject to the requirements prescribed under.

VA. SURFACE MIN. & RECLAMATION ASS'N, INC. v. Andrus, 483 F. Supp. 425

Plaintiff did not challenge the designation but sought permission in 1968 to construct a fifty-five story office building atop the terminal. This section and §§ 86.

West Virginia Coal Ass'n v. Reilly, 728 F. Supp. 1276 (S.D.W. Va. 1989) :: Justia

Cross References This section cited in 25 Pa. The requirements would ensure that the permit applicant obtains a permit to conduct an abandoned coal refuse remining operation in accordance with the requirements of the Surface Mining Control and Reclamation Act of 1977 SMCRA , as amended by the Energy Policy Act of 1992 EPAct. Source The provisions of this § 86.

Vol. 29 Iss. 13 (Final Regulation) 4VAC25

The uses include, but are not limited to, the pasturing, grazing, and watering of livestock, and the cropping, cultivation, and harvesting of plants. In order to ensure consistency of requirements related to abandoned coal refuse remining operations, the proposed regulation also would apply the ground- and surface-water monitoring requirements of proposed part 786 instead of those in § 816. In this case, the parent corporation shall meet

the eligibility and reporting requirements required by this section.

ARblast: All Resources on Blasting

Cross References This section cited in 25 Pa. After an application is approved, but before the permit is issued, the division shall reconsider its decision to approve the application, based on the compliance review required by subdivision b 1 of this section in light of any new information submitted under. A determination whether to negotiate will be made by the Department within 30 days of receipt of a complete proposal.

25 Pa. Code Chapter 87. Surface Mining Of Coal

The court has no quarrel with Mr. Pollution abatement planBest management practices BMP , including, but not limited to, the addition of alkaline material, special handling plans for managing toxic and acid forming material, regrading, revegetation and daylighting, that when implemented will result in reduction of the baseline pollution load. Entry - An underground passage used for haulage, ventilation or a manway coal mining.
