You can move the slider underneath the map to see the change over time, and by switching to the Chart view you can see his assessment of human rights protection country-by-country over time. If one is interested in empirically studying the protection of human rights, it is not enough to count countries that ratify human rights treaties; instead, the quantitative study of human rights aims to determine whether or not certain human rights are protected in practice.

## Progress of the world's women

More work needs to be done linking promotion of human rights and demilitarization and civilian control of militaries as well. As society progressed, natural rights were used to justify the establishment of social contracts, laws that established specific rights for individuals or groups, finally a government to protect legal rights.
