## Regional Planning

While it considers a number of climatic hazards, it is particularly effective on flooding. This overview of urban planning therefore discusses, first, planning as expressed in systems of spatial regulation and the knowledge bases drawn on in relation to these. The research also makes clear the extent to which climate resilience policy has a range of social, economic and environmental benefits beyond adaptation to climate impacts, making it easier to achieve buy-in to climate resilience policy.

### Expecting the unexpected: Draft Strategic Guide to Planning for Natural Hazards

The current articulation of the plan aims to promote a more responsible city with regards to climate change actions and reactions, i. Its main objectives are: improving the accessibility of the priority types of facilities and services for persons with disabilities, as well as of work and employment facilities; improving medical and social expertise; creating the condition for an inclusive education; increasing the efficiency of rehabilitation services.

## Regional Development and Planning: An Overview

The creation of the strategy has been supported by the OSCE Presence in Albania. Further co-benefits of the approach are reduced carbon dioxide emissions, due to discouraging the use of active cooling systems, and through encouraging the use of green walls and roofs it provides opportunities for biodiversity, recreation enhancements and improving air quality. It was perceived that some more deprived local authorities may prioritise development over climate resilience.

## Regional Planning

These nine detailed technical studies are outlined in tabular form in Chapter 5. Thus, targets such as zero carbon cities may be almost impossible to calculate and achieve. Key policy impacts Green infrastructure can enhance resilience to climate impact in many ways, particularly through reducing flood risk and the urban heat island effect.

## **National and Regional Strategic Plans on Disability**

However in order to supplement our learning from detailed narrative case studies of strategic planning we also expanded our search to Local Plans.

### **RTPI**

Document only available in Bulgarian.

### **Regional, rural and urban development**

Managing heat through mechanical cooling systems should be considered last, as they expel hot air out of the building, exacerbating the urban heat island effect. Afghanistan PDF The ANDAP includes an overview of objectives and actions for the period 2008 to 2011.

### **RTPI**

Fourthly, the review of literature on second homes identified many variations between countries and over time, with differences in planning regimes constituting a key differentiating factor.
