In Cook, Ramsay, Bärnighausen, Röhl eds. Indeed, much research was framed in paternalist and stigmatising terms, and research was often driven by a primary fixation on family maintenance.

### **Battered Child Syndrome; a Case Study**

The following year, the New York Legislature passed a statute that authorized such societies to file complaints of child abuse with law enforcement agencies. However, their attempts at seeking help are often frustrated by unresponsive extended family and social services. These networks, then, evidence a transition of ideas between transatlantic medical communities, but also between medical and charitable ones.
