Evolution: Religion: Science and Faith

I think that even the greatest saints or prophets, at least at some moment or another, have sinned.

The original antigenic sin: How

childhood infections could shape pandemics

He was simply foretelling a sad consequence of sin. This historic insight, which we owe to modern evolutionary science, has been too long overlooked by theologians and too long denied to people laboring under the faith-corroding fantasy that suffering and death are the inscrutable, arbitrary will of a callous God.

Evolution, Evil and Original Sin

But it also leads to senescence, or aging. Why does this issue matter? Adam rejected God through disobedience and lost this friendship for himself and us. Having established that every human being had inherited guilt from Adam, Augustine taught that this was why that all human beings were damned, even if they didn't commit any extra sins of their own.

What Was the Original Sin? (What Is the Original Sin?)

Passages of these latter two types are, however, severable to use the legal term from the contributions he makes to the resolution of this putative conflict between science and theology. Joshua Swamidass had, in the book under review, offered scientific answers to some of those questions.

BBC

Now original sin is not due to our action, so it is not our personal fault CCC 405. This website for Whole-Person Education has TWO KINDS OF LINKS: an **ITALICIZED LINK** keeps you inside a page, moving you to another part of it, and a **NON-ITALICIZED LINK** opens another page.
