## Yearbook of the United Nations 1988 (excerpts)

Meanwhile, he urged Israel to introduce temporary measures, including: training IDF personnel in the rules of international humanitarian law an obligation under the Convention ; issuing orders for IDF personnel to assist, in all circumstances, in the provision of medical care to wounded persons; and ordering IDF not to obstruct delivery of essential food and medical supplies. She is now working in London.

## Yearbook of the United Nations 1988 (excerpts)

Resolution 242 1967 remained the agreed basis for achieving a lasting peace. Despite the current circumstances in the southern part of the country, UNIFIL continued to be an important factor in providing stability, Lebanon said; at the same time, increased efforts were needed to allow it fully to implement its mandate.

## Principles of Health Education

Shops of an essential nature, such as bakeries and pharmacies, were repeatedly closed by the authorities, while others were forcibly opened to break protest strikes.

## Yearbook of the United Nations 1985 (excerpts)

These reports reflected both the nascent interest in numerical methods and the on-going conflicts between medical sectarians that characterized mid-century medical practice.

## Proposed Bills are not the cure for the current health sector crisis

The Ministers for Foreign Affairs of the Organization of the Islamic Conference, by a communiqué adopted in New York on 9 October 1985, had requested all Islamic countries to sign the letter.

## **Manpower considerations in the development of a co**

The operation, for which it said Israel had officially claimed responsibility, had resulted in the loss of many lives and material damage and destruction on a wide scale.

## **Principles of Health Education**

In September, the first physiotherapy clinic was established in the Balata health centre near Nablus. AnchorThe financial crisis of most local government in developing counties is worsened by the fact that they are located in the rural areas. Lebanon stated that the attack was further proof that Israel considered as fair game Lebanon's sovereignty and territorial integrity, its soil and territorial waters.
