### Reincarnation the Eternal Cosmic Law— John H. Manas

THE ONE—THE ABSOLUTE—according to the Highest Teachings, is Pure Spirit, and not Life, Mind, or Being as we understand them in our finite and mortal expressions. Let us take a few peeps at the Will moving behind the curtain! We should say assuredly not, for it must feel that behind its tiny form and limited strength is the strength and vitality of the entire organism of the tree.

### Metempsychosis, First Edition

However, as from a grain of wheat always grows a plant of wheat and never a banana, or a pumpkin, in the same way from the seed of a dog, a dog will always be born and never a whale, or a frog, and from the seed of a man, only a man will always come into being, and never a horse, an elephant, or a bird. And, we trust that in so doing, we shall be able to awaken in you a still higher realization of your relationship with the One, and a corresponding Love for that in which you live, and move and have your being.

### Reincarnation the Eternal Cosmic Law— John H. Manas

It is true that the Reason is compelled to accept as a final truth, many things that it cannot understand by reason of its finitude—but this is not one of them.

### Reincarnation the Eternal Cosmic Law— John H. Manas

But back of the caused things must lie THAT which is the Great Causor of Things, and which, not being a Thing itself, cannot have been caused—cannot be the effect of a cause. They are tiny geometrical forms.

### John H Manas

In our First Lesson of this series we spoke of the One Reality underlying all Life.

## **Life's Riddle Solved Through the Law of Metempsychosis 1944 : Manas, John H: tech.radiozamaneh.com.au: Books**

Some of the animal forms yielded to the desire to fly, and wings appeared gradually, and we called it bird-life. They recognize that cheese has the same nourishing properties as the insect, and they accept it, although it is far different in feeling, taste, appearance and every other characteristic from their accustomed food. Of the real nature of The Absolute, of course, we can know practically nothing, because it transcends all human experience and Man has nothing with which he can measure the Infinite.

## **The Will's Harmonic Motion: Existence Riddle Solved Fifth Edition, Brand New,...**

One almost believed that he saw the forms of formless creatures. But among the Eastern Masters there are other sources of information open, and from these sources come the same report—the Oneness and Unity of Universal Life. He feels within himself the certainty of infinite Life and being, for his Life is the all Life, and that cannot die.

## **Lessons in Gnani Yoga (The Yoga of Wisdom)**

Enter ye into your Kingdom of Power—possess yourselves of your Birthright of Knowledge. The cell will die and apparently perish, but the essence of it will remain in the life of the person whose body it occupied, and nothing really dies or perishes.
