They are forged, but you COULD turn one out of bar and slot it. Yes, on most powered shapers, damage will be caused if the table is auto-fed beyond its normal travel. Forming This is the first stage of a team coming together; a group of people have come together to accomplish a shared purpose and the results can be unpredictable.

Metalworking Shaper Work and Operating Course #1275

A good, simply written introduction to shaper operation. But unlike a lathe, there are no dials to indicate how far you have gone! I've retrieved the images from the USPTO and assembled them into another PDF here. It's done much of the work that a milling machine would have done until I got one working and did the work of a bandwas until I got one of those as well.
