Textile

Sewing Contractors Terms Air Porosity — The ease with which air is able to pass through material.

Influence of Tencel/cotton blends on knitted fabric performance

The most prestigious kind of pudong, limited to the most valiant, was, like their G-strings, made of pinayusan, a gauze-thin abaca of fibers selected for their whiteness, tie-dyed a deep scarlet in patterns as fine as embroidery, and burnished to a silky sheen. The stencils are made of metal wood paper or plastic.

Knit Fabrics

They also worked in the millhouses because they could gain a sense of independence and growth as a personal goal. Early woven clothing was often made of full widths draped, tied, or pinned in place.

Understanding Fabric Weight in Order to Choose the Right Fabric

Anthropologists believe that animal skins and vegetation were adapted into coverings as protection from cold, heat and rain, especially as humans migrated to new climates. So, the most famous terry weaves are 3-pick and 4-pick out, of which 3-pick terry weave is the most popular. The term knitwear includes two main textile techniques, weft and warp knitting Spencer, 2001; Weber and Weber, 2008 Table 7.

Circular Knitting Machine

Sewing contractors engage in small production such as sewing labels onto uniforms, producing cut fabric for hobbyists, and custom embroidery as well as large-scale manufacturing.

How your clothes are poisoning our oceans and food supply

Small diameter hosiery machines have up to four or occasionally eight knitting systems feeders and an important feature is the combination of rotary and reciprocal movement of the needle bed beds. Polar fleece is much thicker and warmer than microfleece.

What is Lycra Fabric: Properties, How its Made and Where

With somewhat less freedom, yarns can be laid into weft knits.

Terry Fabric

The wearing quality and fit of modern panty hose have been greatly improved with the development of stretch and spandex, and greater variety has been introduced with the development of texturized yarn. Retrieved on 1 January 2012.
