Restoring the Physical Infrastructure for Health Sciences Research

Summary and Conclusions The committee emphasizes that the single most critical long-term investment in the U.

Front Matter

Considerable discussion has focused on reasons for the failure of science educators to stimulate student interest in scientific careers. The NSF Science Facilities Program also contributed to the renovation and addition of large amounts of research space during the 1960s.

Funding health sciences research : a strategy to restore balance / Committee on Policies for Allocat...

Over the past four decades, scientific knowledge has been expanding at an exponential rate. From 1979 to 1988 the total number of research project grants supported annually by NIH grew by one-third, from 15,500 to nearly 20,900.

Nurturing Scientific Talent

These organizations can contribute directly through specific facilities and equipment programs or indirectly through comprehensive curriculum development programs with allowances for facilities construction.

Task Forces

However, the committee believes that these organizations cap IDC rates, and, therefore, they do not pay the full costs for performing the research they sponsor. Department of Veterans Affairs Historically, the Department of Veterans Affairs VA , previously known as the Veterans Administration, has provided health care to veterans through a network of 172 hospitals and centers nationwide.

Funding Health Sciences Research: A Strategy to Restore Balance

Berlin : de Gruyter, 2013.

2 Funding for Health Sciences Research

Clinical training is of particular concern because it requires a substantial time investment, especially if the physician embarks on a career requiring subspecialization.
