## Sir Francis Bacon

Knighted in 1603, he was then steadily promoted to a series of offices, including Solicitor General 1607 , Attorney General 1613 , and eventually Lord Chancellor 1618.

## Francis Bacon

In the last section 3 Bacon finds a place for his idols, when he refers to the detection of false appearances as the deepest fallacies of the human mind: For they do not deceive in particulars, as the others do, by clouding and snaring the judgment; but by a corrupt and ill-ordered predisposition of mind, which as it were perverts and infects all the anticipations of the intellect. Rossi's analysis and claims have been extended by in his study, The Myth of Disenchantment.
