This flexibility allows the male to choose the posture in which to urinate. This means that in the event of a rival male's sperm residing within the of a female, the human penis is able to displace the rival sperm, replacing it with his own. There will be some good and some bad that comes from it, and I hope that the Lakota attribute of forgiveness helps to heal the wounds that have haunted the people of the Pine Ridge Reservation for far too many years.

The Cock Road Gang

The is the visible ridge between the halves of the penis, found on the ventral or underside of the penis, running from the meatus opening of the urethra across the to the area between scrotum and.
