claiming common opinions by asserting common ground. The study shows that the H abstraction from the C 2 H 2 group in EtFBA is the most energetically favorable because of the lowest barrier and highest exothermicity. Strategic alliances and interfirm knowledge transfer.

Business discourse: Old debates, new horizons, IRAL

From the socio-cultural view of learning, our perception of reality is a product of socio-cultural process and all knowledge is socially mediated, which is grounded in culture ; ; English Language Teaching, 2 1 , 46-61. Therefore, it should be taken into account that there might be some participants with a high level of anxiety in their limited language proficiency and ways to reduce their anxiety level and encourage their participation need to be considered.

Contrastive rhetoric

Refer to , and for more a more detailed account of the COW tool and associated case discussion activity. Editorial pressures and standardization of submission requirements might cause change in the expected direction. At the same time, individual workers must learn to navigate a workplace where daily contact with other languages and cultures is becoming the rule, not the exception Feely and Harzing, 2003; Gunnarsson, 2010; Louhiala-Salminen, 2002; Roberts, 2010; Vaara et al.

Linguistic Politeness—A Major Tool for Cross

There is no any specific act that can be used to increase students' motivation. Before coding the data, the investigators discussed and reached consensus on the definition of each code based on the descriptions and examples presented in Professional and Academic Discourses in the Study and Practice of Law - Anna Mauranen: « A Good Question.

Lexical phrases, culture, and subculture in transactional letter writing

Today, writing is increasingly regarded as being socially situated; each situation may entail special consideration to audience, purposes, level of perfection, and correspondingly may require varying amounts of revision, collaboration, and attention to detail.
