## Read Civil

In July of 2003 British Waterways eventually took over ownership and responsibility for the South non-commercial Docks Complex and threw their full corporate weight behind development of the proposed waterway. The rapidly developing metropolis was hungry for the talents of engineers to realise its potential as a centre of shipping and industry.

When Norman scored the plum job at Mort's, he brought his family with him from to live at Balmain.

## The Liverpool Link

Engineering Connection Engineers take into consideration the impact of many types of forces when designing structures. As engineer at the Bristol Docks, Brunel carried out extensive improvements. This was an initiative driven by Selfe, who had admired the workshop teaching model abroad.

## The Liverpool Link

An old undated map showing the original Liverpool Docks An engraving of Liverpool Docks in 1887 showing barges trans-shipping cargo to sea-going vessels Image - Liverpool Records Office In later years this traffic was distributed not by canal boats but by rail and later by road.
