**Renault Media Nav (Evolution)**

This model's engine capacity was reduced to 1300 cc and became the entry model when the better equipped GTS 1400 cc was launched in 1985.

## Renault Media Nav (Evolution)

NNG reserves the right to change such information at any time without prior notice. As of April 1986 the Renault 9 gained the twin headlight front design of the 11, while the 11 GTX was replaced by the TXE. NNG shall be liable for the content and the information provided on the Site including the links available from the Site.

## Renault Media Nav (Evolution)

The car was produced in Turkey until 2000. The C1E was phased out from the series since phase 2, making C1G the smallest engine of the series. Elected as the European Car of the Year in 1982, the Renault 9 was sold in over one million units over its nine-year lifespan.

## Renault 9 Turbo (1985)

Renault has revised its sales target for electric vehicles in an effort to catch up with its European rivals. According to a statement released by the Renault Group, the French carmaker will increase the efficiency of its electric vehicles through specially developed platforms for electric vehicles.

## Renault 9 and 11

Renault Chief Executive Luca de Meo said the carmaker is also planning to launch as many as 10 new EV models in the next four years.

## Renault 9/11

With 623,573 examples manufactured for model years 1982—1987, AMC offered the Alliance as a four-door sedan, two door sedan with higher rear wheel arches than the four door and as a , beginning in 1984. The newer F-type engine which had been developed in collaboration with Volvo appeared in later years in 1. Le Moniteur de l'Automobile in French.
