## Technical Meetings, Welding Conference

The results of the EU Project and newly invented tip dress system were also presented and demonstrated. This series of seminar is unique and the largest international event specially dedicated to the developments and innovations of resistance welding in industry. The basics of the DVS-commitment are the common objectives of IIW and DVS such as knowledge transfer, support of Young Professionals, education and training as well as standardization.

## International Institute of Welding / IIW members

Industry leaders discuss state-of-the-art welding and joining technology for the automotive, transportation, and light manufacturing industries.

## International Institute of Welding

The seminars have been well attended with more than 80% participants directly from industry. At our events, we also allow time for a question and answer session with industry thought leaders from around the nation and local.

## International Institute of Welding / IIW members

Welding Works International provides skilled and semi-skilled welding and related services to the construction industry. Download: The 4th International Seminar on Advances in Resistance Welding was organized by SWANTEC and FRONIUS on 14-16 November 2006 in Wels, Austria.

## Seminar and conference

The 17th annual SMWC will emphasize recent developments in welding and joining solutions that enable lightweight vehicle design and construction. Until now DVS is actively shaping the operations and the development of IIW.
