Preparedness, Response, and Recovery

Disaster and Emergency Planning for

In many other countries, military forces are used in disasters to compensate for deficiencies in civilian response, which may be poorly organized and underfunded. These KPIs are used to quantify the effect of the potential implementation of measures on the port-city development in the broadest sense.

A Guide to the Planning System in Scotland

This short guide can't cover every question. Depending on who made the decision about your application, you can appeal against a decision either to a Local Review Body or to Scottish Ministers. Several biotopes exist in these coastal areas, which results in a large biodiversity with complex food web and multiple interactions between different trophic level of species.
