### 14 of the world's weirdest insects

Despite that, they have something in them that deserves human admiration: these insects are! So, what does this have to do with modern day medicine? After letting the ants associate the odors with their nest, they were then removed and then placed in a different location, one with no nest and no entrance. The true facts are way more interesting than the made up facts. Surprisingly, the dung beetles were still capable of rolling their precious dung balls in a straight line.

### The world's 20 most incredible insects

They feed on water-rich foliage and flowers. The transparent wings make these butterflies very difficult to spot.

### Amazing Insects of the World

Photo: No, really, I'm dead. Aside from that, they can also calculate angles very easily just by reading their waggle dances.

### 10 Insects with Amazing Superpowers

Brazilian treehopper by licensed From the same family of insect as the thorn bug, these guys have a strange crown of fuzzy circular horns on their heads.

### 10 Insects with Amazing Superpowers

Some caterpillars have hollow body hairs that contain a painful irritant. These small projections on their body have attractive colors including green, blue, yellow and orange. Larvae tunnel in the stems and roots of various shrubs.

### Top 10 Most Beautiful Insects in the World

This, in turn, helps in keeping their flight at a consistent rate.
