The Cannibal King and the utter belief in unicorns is delightful. At one time, according to Mr Kandinsky, they had been as common as carthorses, but the misfortune of having a magical horn had led to them being hunted and trapped, so they had one day all fled to Africa. I also liked how it shows the interconnectedness of the characters.

And it isn't, but rather a charming novella told from the perspective of 6-year-old Joe, a boy living above a tailor's shop in 1950s East End London. A Kid for Two Farthings winds down with a collage of wins and losses for its central players, and for little Joe an awakening under the gentle guidance of Mr.

Joe's father has gone to Africa to try to make a living in business there, his mother works for a milliner, Mr Kandinsky, the tailor and his unofficial babysitter, teaches Joe just about everything, and Joe hopes to find a uni I have no idea where I picked this up likely some used book sale but I am pretty sure I thought it was a children's book. The main storyline follows Joe as he buys himself a unicorn, after several unsuccessful attempts to raise chicks. The character of Kandinsky in particular is seen to embody the plight of surviving European ten years after the.

But will it be enough? But the last page just didn't make much sense. A body builder called Sam Joe Robinson , his girlfriend Sonia Diana Dors and small boy Joe Jonathan Ashmore. I guess like many films of the period I can connect it too, it is filled with the expectation of the age.

## A Kid for Two Farthings by Wolf Mankowitz

Definitely a book I would read again.
