Women and Technology: Opportunity Is not Enough

Blacks in STEM jobs tend to report experiences of workplace discrimination due to race more than blacks in non-STEM jobs 62% vs. Part of the gender gap in technology statistics shows that meaningful resources have been put into developing programs such as Galvanize. Check out the for more on gender equality.

Women and the Future of Work

Put your money where your mouth is..

Women and Technology: Opportunity Is not Enough

But if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is stupid. When women are employed, they tend to work in low-quality jobs in vulnerable conditions, and there is little improvement forecast in the near future. According to the , China has dramatically lowered its maternal mortality ratio from 97 deaths per 100,000 live births in 1990 to only 27 deaths in 2015.

Women and the Future of Work

Ranked in the bottom fifth globally in terms of wage equality, South Korean women earned a shocking per capita less than men in 2017. To conclude, the bottom up approach is sustainable. Even with positive strides forward thanks, suffragists! How Can We Reduce the Gender Gap? There is also a need to find ways of overcoming the growing gaps in online access, and this is not just a matter of having the means to access hardware, but also the soft skills required to be able to use the technology.

Why we need more women in tech by 2030

Each level of influence is crucial to the success of future generations of women in STI.
