Books from multiple publishers are automatically integrated into a single digital library on your system. Real-Time Protection uses artificial intelligence and machine learning to keep you safe from online threats, even emerging threats that no one has ever seen before. MITRE intends to maintain a website that is fully accessible to all individuals.

Project Risk Management Handbook

Look for the Libronix DLS logo to ensure that your growing library remains accessible through one, easy interface! Risk occurs across the spectrum of government and its various enterprises, systems-of-systems, and individual systems. It also tells you more about threats it finds, like their type and behavior, so you can make smarter security decisions. A project Gantt schedule with daily, weekly or monthly intervals is created automatically with embedded task information.
