Computer and Information Science and Engineering (CISE) Research Initiation Initiative (CRII) (nsf21591)

In preparing this summary, the committee has drawn on the contributions of speakers, panelists, and participants in the workshop, who provided a rich set of illustrations of the role of information technology in crisis management, issues regarding its use, possible research opportunities, and process and implementation issues related to such research. These institutions must recruit, train, and prepare a diverse STEM workforce to advance the frontiers of science and participate in the U.

Computer and Information Science and Engineering Minority

Amid the ongoing outbreak of COVID-19, Forbes has mentioned high-performance computing as one of the most valuable weapons against the fight. If we can interpret the outcome in a meaningful way, then the end user can better trust the model. SHEEHAN, Senior Program Officer ALAN S.
