### Object Storage for Capacity

Comment One commenter stated that CMS should not require intensive behavioral therapy as a pre-requisite for beneficiaries seeking bariatric surgery. For beneficiaries who do not achieve a weight loss of at least 3kg during the first six months of intensive therapy, a reassessment of their readiness to change and BMI is appropriate after an additional six month period.

### Object Storage for Capacity

Data-intensive computing systems utilize a machine-independent approach in which applications are expressed in terms of high-level operations on data, and the runtime system transparently controls the scheduling, execution, load balancing, communications, and movement of programs and data across the distributed computing cluster. Annals of Behavioral Medicine, 25, 92-99. Response We believe that any portions of the policy viewed as restrictions are necessary to ensure these services are provided to the appropriate patients under appropriate circumstances.
