Special educational services in Alberta.

Alberta Education, Special Educational Services Branch - Supporting Students with Special Needs in Alberta Schools

Every student can learn with enough time, practice and equitable and responsive teaching.
Every student, including those with special needs, should receive full-day instruction every day, with flexibility based on the student's individual strengths and challenges.
Every student should be taught within a common learning environment (e.g., a classroom) with students of similar age within the community school, with flexibility that is based on, and responsive to, the student's individual strengths and challenges.
Inclusive education values, draws upon, and includes student voices and choices to assist students in achieving their goals.
Every student deserves to belong (affirmed, validated, and nurtured), be safe, and feel welcomed in all aspects of their daily experience.
Inclusive education is a commitment to honour and respect each student's cultural and linguistic identities and knowledge systems
Inclusive education practices use evidence of students' strengths and challenges to determine a system of supports and monitor the effectiveness of those supports.
All partners are committed and empowered to work collectively to identify and eliminate barriers that interfere with students' well-being and achievement.

Special education coding criteria

A district magnet classroom is available for kindergarten students receiving Early Childhood Education services who need more-intensive programing. Ask if and when another meeting should occur. Program Description Graduate programs in Special Education provide applicants with skills in using research, and scholarly and professional literatures which enable them to better meet the academic, psychological and socialization needs of students with special needs.

Resources for students with disabilities

Every learner has unique needs. Students begin receiving special education program services as soon as their IEP is signed.

Special education services

Funding is not determined through coding.

Resources for students with disabilities

The University of Alberta respects the sovereignty, lands, histories, languages, knowledge systems, and cultures of First Nations, Métis and Inuit nations. Being an advocate is a collaborative and ongoing process.

Supporting Students with Special Needs in Alberta Schools

American Sign Language request Please fill out the form and return it to the special services department. Pendant cette période de transition, l'information qu'elle contient demeure disponible sur. Applicants will be assigned an advisor after admission to the program.

Special Education

The need for additional supports may be determined at any time during the school year. Applicants must secure a supervisor prior to submitting an application to the program.

Inclusive education

An IPP is a plan of action designed to guide a student's special education needs. You must request and sign for the records. In Alberta, the preferred placement option for all students should be in the regular classroom in the neighbourhood school or private ECS program.

Resources for students with disabilities

Teachers, school administrators, and caregivers are all involved in the development and delivery of IPPs. Caregivers should be consulted when other placements are being recommended for their child. What is the Special Education Coding Criteria and what is it for? For more information, see the Learning Team Handbook at Alberta Children's Hospital Family and Community Resource Centre Resources Thank you to our friends from and for their contributions.
